

Falck Nutec

Falck Nutec opens Mobile training facility in Germany

In order to provide better service to the German offshore wind market Falck Nutec is now offering offshore training in Emden Germany. The training is carried out on one of Falck Nutec's mobile training units, with instructors from Falck Nutec's training centre in Esbjerg Denmark. The training in Emden is a result of cooperation between Falck Nutec and the two German companies BARD Engineering and Wiking Helicopter.
